## PROGRAM OVERVIEW

These pilot workshops introduce participants to Copilot for M365, Chat, Studio and Agents helping them understand its capabilities and learn how to integrate it into their daily work.

The program includes foundational sessions on Copilot's role in boosting productivity, followed by targeted, hands-on training tailored to team workflows. Continuous support ensures successful adoption and long-term integration across the organization.

# Workshop Packages

## Copilot Immersion Workshop

 < 1000 employees

The Copilot Immersion Workshop is a short, introductory training session designed to help organizations quickly understand the value of Copilot before moving on to more in-depth workshops. It provides a clear and practical overview of Copilot Chat and Copilot for M365.

**FREE**

 Duration: 1H30

## Small Package

 < 1000 employees

Our Small Package is designed as an accessible introduction to Copilot for M365, Chat, Studio and Agents, providing teams with essential training and guidance to begin leveraging AI-driven productivity tools. This enables organizations to quickly adopt these tools and experience immediate improvements in their daily tasks.

**\$7,500 CAD**

 Duration: 1 month

Approximately 20 hours of collaborative sessions and strategic activities

## Medium Package

 1000 to 2500 employees

Experience the next level of productivity transformation with our Medium Package—crafted for organizations ready to unlock the full potential of Copilot for m365, Chat, Studio and Agents. Ideal for those who want to go beyond the basics and drive meaningful change.

**\$21,000 CAD**

 Duration: 2 months

Approximately 40 hours of collaborative sessions and strategic activities

## Large Package

 > 2500 employees

Take a more in-depth approach to Copilot for m365, Chat, Studio and Agents adoption with extended training, greater departmental customization, broader support, and enhanced prompts and resources—helping teams move beyond the basics and build advanced, workflow-specific skills that boost productivity and ROI.

**\$35,000 CAD**

 Duration: 12 weeks

Approximately 60 hours of collaborative sessions and strategic activities

### Key features

These sessions provide an overview of Copilot's capabilities and effective prompting techniques, tailored to selected departments or M365 applications. Delivered through four immersive, expert-led workshops, the program offers foundational training and practical prompting skills to equip all participating teams with the knowledge they need for impactful, in-depth mastery.

### Customization

The program provides tailored workflow examples, prompt libraries, recap materials, and adoption guides, along with key success metrics and recommendations. It includes advanced customization to better align solutions with each team's workflow, plus specialized Copilot for M365 sessions to help users apply contextual prompting and improve decision-making across Word, Excel, Outlook, Teams, and PowerPoint.

### Support

The program offers tailored troubleshooting and expert guidance based on each department's or application's needs, supported by extended hands-on collaboration and follow-up to ensure sustained success with Copilot. Ongoing support includes issue resolution, advanced tips, and focused Q&A to help teams maximize Copilot's benefits.
